### Forensic Analysis: Maurice Kirk – Tel. 07907937953

1. Maurice is a 65-year-old veterinary surgeon with a passion for flying, a strong sense for what is right and wrong and the courage to defend himself. He was removed from the Royal College of Veterinary Surgeons register in 2002. His website [www.kirkflyingvet.com](http://www.kirkflyingvet.com) is popular world wide due to the adventurous nature of the pilot and the extraordinary legal battles he's been fighting.
2. Maurice has been seriously harassed by South Wales Police ever since 1977, when he was supposed to have stolen the notebook from the drawer of an Inspector's police station in Taunton. He won this case, but supposedly was owning a machine gun later, and was again found not guilty. See <http://bit.ly/cm5uOW> and <http://bit.ly/c4tIJe>
3. On one of his flights, Maurice landed near George Bush's farm and was put into a psychiatric clinic in Austin, Texas.
4. In the UK, the series of harassments included sending him to the mental ward of Caswell Clinic, Glanrhyd Hospital, Tondy Road, Bridgend CF31 4LN. In that process, the following reports were produced:
  - a. August 3<sup>rd</sup> 2009: Dr. Tegwyn Williams wrote a *1<sup>st</sup> Interim Psychiatric Report* that formed the basis of the judge's decision to section Maurice under the Mental Health Act on August 7<sup>th</sup>, 2009. The report, produced at the request of *Cardiff Crown Court*, was based entirely on documents and website, without interview. See <http://bit.ly/cfp5QP>
  - b. Without date: A Mental Health Services' Consultant and Forensic Psychiatrist from the Caswell Clinic wrote a *2<sup>nd</sup> Psychiatric Report* about the charge of the possession of a firearm sold or transferred a firearm. See <http://bit.ly/cfp5QP>
  - c. August 12<sup>th</sup>, 2009: The University NHS Trust requested copies of medical records from the Austin State Hospital, but refuses access to Maurice. See <http://bit.ly/d5tiWM>
  - d. September 30<sup>th</sup>, 2009: 3<sup>rd</sup> Psychiatric Report by Dr. Tegwyn Williams para 9: "paranoid delusional disorder", para 10: "significant brain damage"
  - e. September 1<sup>st</sup>, 2009: Dr. James Godfrey, Clinical Psychological Report, Penarth Ward: "I do not feel that Maurice's court cases and litigious processes were initially motivated by any form of delusional paranoia. However, it may well be the ongoing effects of these court cases have had a negative impact on his mental health. The long-term effects of stress; lack of sleep; removal of other forms of cognitive stimulation, such as his work; and association with a peer group who have extreme conspiratorial beliefs may, at certain points, cause Maurice's to be vulnerable to delusional beliefs. In my opinion, Maurice is not currently suffering from a delusional disorder. However, it is felt that continued physical and psychological stress could have some adverse affects on him in the future. If the current stressors surrounding Maurice were removed, there is every chance that his mental state would stabilise and his levels of anxiety reduce."
  - f. October 19<sup>th</sup>, 2009: para 32 of the 4<sup>th</sup> Psychiatric Report by Dr. Tegwyn Williams [ <http://bit.ly/bzJ0wK> ] contains remarks of: "clear evidence of some degree of 'neuro-cognitive (brain) damage'"
  - g. December 1<sup>st</sup>, 2009: Dr Paul M Kemp, Consultant and Honorary Senior Lecturer in Nuclear Medicine writes upon request from Yorkshire Law Solicitors to comment on brain scan images: "I do not believe that there is any convincing evidence of abnormality..."
  - h. May 26<sup>th</sup>, 2010: NHS University Health Board states that reports by Dr Bagshaw and Dr Sylvester did not exist and that Texas Reports have been returned – without Maurice ever seeing them.
