

Clerk of Court
Cardiff Magistrates

13th November 2010

Case no 1000470237

Application to Set Aside Hearing of 2nd November 2010

Dear Mr Richmond,

Further to my previous letters, in relation to this, I still have had no written reply as to the situation.

I am anxious not to be out of time for the Crown Court or the Divisional Court.

Please urgently place my requests before today's court.

- 1) A hearing was held 2 November 2010 in my absence. Medical and other information was already with Barry Magistrates and Civil Justice Centre and a new GP report arriving at Court at around the time of the hearing. These, I understand were not all received or taken into account, as they were in the other above named courts.
- 2) Please could you set aside both the 2 November 2010 hearing and the arrest warrant.
- 3) Please would you order disclosure with urgency so that I can prepare my case for trial.
- 4) The notes that the then Clerk to the court made on 2 November 2010
- 5) The Crown Prosecution Service refuses disclosure of 'unused material' or detrimental to their case. What prosecution evidence was put to the court? Please would you order disclosure. The CPS has not disclosed what I have asked for and the CD of overhead cameras, I asked for on 27th August in court, I am told is corrupted.
- 6) I am in poor health, and would be most grateful if you could help in the above matters

Yours faithfully,

Maurice J Kirk
