Maurice Kirk v South Wales Police

I am unfit to attend and am reliant on nine medical reports in HM possession, under MAPPA control, the subject of 30th November 10 Judgment now, with permission, is subject to appeal.

.
Current concern, recorded by my Breton doctor, this week, as to failure by the South Wales Police, HM Crown Prosecution Service and HM Court Service, to release my medical records, needed in rebuttal to the 30th November 2010 Judgment, is also being drafted as a Humble Petition by a Channel Island resident and British subject, to Her Majesty the Queen, the Duke of Normandy.

I will forward that document once I have signed it and lodged it with HM Judicial Committee of HM Privy Council, currently refusing to hear my appeal lodged against HM Royal College of Veterinary Surgeons because the facts for both cases appear to be one of the same..

Maurice J Kirk BVSc
Alderney, Channel Islands.

Para 149 etc. I apply for the learned judge, again, to read the MAPPA Executive monthly reports AND the minutes in order that the Claimant obtains written judgment for appeal to be incorporated with appeal due to the strike out of incidents and refusal to include Action 4.
