

County Court  
Cardiff

3rd December 2010

Dear Sir/Madam,

**Kirk v South Wales Police CF101741 +Two Others**

**Appeal to Court of Appeal re Falsified Chief Constable's Affidavit, Falsified Forensic Medical Records, Falsified HM Court Service Records and Falsified MAPPAs Minutes**

I apply for a further two weeks to lodge my appeal to the Court of Appeal as I am yet unable to absorb the content of 40 pages of judgment the subject of which will not return, the court clerk tells me, for court process, until March 2011, at the very earliest..

I also apply that the two extra weeks start once I have received copy of ALL the original 'Executive Record' of 2009 MAPPAs meetings, handed into your court, earlier this year but not yet read by the trial judge.

Should the Defendant's MAPPAs 'documents', to be released, by 30th November 2010 Court Order, before the 15th December 2010, be at variance to anything we saw handed in by the Defendant's QC, in September, to you or materially different to the already leaked South Wales Police record, in my possession, indicating still further police criminal conduct, I ask the court to order a police force, from outside South Wales, to be called in to investigate.

Thank you
