Appeal re Cardiff Common Assault Conviction 2nd Nov 2010

1000470237

Dear Sirs,

I appear to have located the 'grounds', enclosed, which were attempted to be lodged with the Cardiff Crown Court prior to them being sent on to the Criminal Court of Appeal when I was shoved down the stairs and had to be admitted to hospital

Whereas it was later filmed that Their Lordships, at the Criminal Court of Appeal, not just refused to even comment on my appeal documents or even hear my oral submissions, it leaves me wondering as to whether Derrick Hassan's action, to seriously assault me and to refuse the 'Grounds', at the top of the court stairs, was in fact lawful. CCTV captured it all, I understand, but I am yet to find time to view it, I being refused that opportunity at your court.

Alternatively, Derrick Hassan was in 'Contempt of Court' and therefore needs to be arrested and brought before the earliest Crown Court available.

That leaves the matter of the doctor's evidence, the issue that led to a 'Contempt of Court' in the first place, its conviction of a term of imprisonment.

Following my telling His Honour Judge Nicholas Cooke QC, that he appeared to be a flagrant liar when saying I would be given the evidence supporting the diagnosis of my 'significant brain damage' and possible brain tumour, it is now two years on and I am still waiting.....

In which order, please, do you propose doing all this as, in the alternative, in the light of the content of my enclosed standard letter, before Cardiff hearings, on Article 6 issues, should it not be first adjourned until my doctor has confirmed the validity of his medical records as to whether I am fit to stand trial?

A valid Court Order may be in existence forbidding me disseminating the identity the doctor but without some leave from the court how do I obtain a summons to serve on him, please?

Yours Faithfully,

Maurice J Kirk BVSc
