Dear Sir,

Re More South Wales Police Bullying

Further to my 18th November 2012 letter of new complaints there are more incidents of further bullying including the Christopher Paul Alexander (alias Ebbs) complaint of Conspiracy to Pervert the Course of Justice,(enclosed), being deliberately delayed by the South Wales Police Professional Standards Department at Bridgend HQ.

Further evidence of criminal conduct by their rogue MAPPA forensic psychiatrist has also now been admitted in 13th December 12 Morgan Cole, solicitor's enclosed letter deliberately withheld, to the Crown Prosecution Service, no less, indicating still more collusion as there was with Dolmans, solicitors in the 2009 MAPPA meetings.

Adrian Oliver, senior partner in Dolmans, Cardiff, advised the police for MAPPA meetings to instigate my seven month incarceration, commencing 22nd June 2009, with his firm's 20th June 2009 MG11 police statement, to get me arrested via police helicopter and a huge armed police swoop on our home even attempting to snatch my then ten year old daughter in 'Operation Orchid' for Social Services re homing.

Their fabricated 'machine gun' stitch up, carrying mandatory and cumulative sentences of ten years, was anything to prejudice the Summer 09 listed three month trial for civil damages claim for ten years of extreme bullying, a string of false imprisonments and countless malicious prosecutions, losing 90% of the allegations.

Dolmans advised over MAPPA employing the then Clinical Director of Caswell Clinic to have me sectioned under the 1983 Mental Health Act without him even examining his patient and here he is, again, lying to his employers but to hush things up, no GMC, they are using only one solicitor! What would the tax payer make of it?

Now, I understand, only by using the 1898 Police Property Act, when trying to recover my confiscated valuables, police 'recovered' a 'prohibited weapon', a .410 walking stick shot gun, during the January 2010 farcical 'machine gun 'trial' but no one will talk to me to me about it!! What about the ammunition buried in the garden?

What on earth is the IPCC for if not for conduct like this? I warn you, if they get away with it who will be next being recommended in Cardiff Crown Court to be locked away for life, IPP, in Ashworth High Security Psychiatric Hospital convicted or not?

Yours truly,
Maurice J Kirk BVsc
