

## Statement of Truth

4<sup>th</sup> May 2013

I, Jane Davies [REDACTED] confirm that the content of this, my statement, is true to the best of my belief.

1. I was employed by Mr Kirk in the early 90s as a veterinary receptionist and worked in both his Llantwit Major, Burial Lane and Caerau, Cardiff veterinary surgeries.
2. I was a witness, in mid 1993, to the police, in force, come to his adjacent flat to the surgery when he had complained of being assaulted by 'squatters', had forced entry into the dwelling and were now refusing to leave.
3. I was also aware the Mr Kirk purchased one Kg of sulphur in order to deter their re entry for the next few days.
4. But later, during 1993/94, I witnessed the burglary damage of his Llantwit surgery and heard him complaining that the police refused, on each occasion, to even visit the 'scene of crimes' and investigate.
5. I waited a long time on both occasions but no police ever arrived.
6. On one occasion Mr Kirk had to eventually have a builder, a Mr Fairman, travel from Barry to make the smashed door secure as many dangerous drugs were in the surgery.
7. I was also aware of his Citroen car that had been vandalised, (smashed windscreen) parked at the back of his Barry surgery with the police, again, refusing to investigate at all.
8. I attended Barry magistrates, on Mr Kirk's instructions, as no one was likely to recognise me as a new member of his staff. I witnessed lots of police kept waiting as Mr Kirk had suffered a motor cycle accident and was in Bridgend hospital.
9. The case continued without him despite his secretary having contacted the court with the relevant information.
10. I heard in the court the police speaking to the prosecutor and saying, 'we are eventually going to get the bastard'.
11. I signed a sworn affidavit, for Mr Kirk's Appeal in London and attended the subsequent Crown Court hearing tin Cardiff.

Signed

[REDACTED]
