

Lawyer Instructed to Call the Criminal Cases Review Commission's Bluff

He/she is to apply for a copy of 1st Dec 2011 Cardiff magistrates' court file covering my harassment conviction and alleged service of a restraining order in the court cells specifically designed to protect the now sacked police doctor and senior MAPPAs police officers who hatched the 'machine gun' conspiracy in the first place.

The psychiatrist was specifically employed by the Chief Constable of South Wales Police to have me sectioned into Ashworth psychiatric prison, in definitely, in order to further prejudice my now 23 year running harassment damages claim following my 'borrowing' of the Taunton Chief Superintendent's personal note book back in the late 70s.

ODDS are starting at 10/1

I am now taking the bets the lawyer will fail.

My house is for anyone else who can supply a copy along with the collateral public court records generated following my need to arrest both a prison officer and the Crown Prosecutor in the case.

Remember, the police have since confiscated the court exhibits. Cash for their current whereabouts.
