**State a Case Quashed Without a Hearing**

I am alarmed to hear on the telephone from you, just now, that the Crown Court are denying receipt of the sealed copy I took from your office when lodging them at the beginning.

I deliberately drove to London to lodge the papers from Cardiff to seek impartiality.

I scanned and photocopied and sent them to Cardiff Crown Court and returned the original one from your office (with proof of payment stamped on it) back to your office at about the same time as I had promised by the favour. { I appeared to have charmed the lady to let me have one of the three sealed copies as I did not have a 4th copy of my own }

Since then I have been communicating with CPS over the disclosure required for the JR hearing ....ie there was no restraining order at trial nor was any restraining order served on me etc

My solicitor on other police issues took relevant information from me whilst I was in custody in February before we knew the case for trial on 2nd May before jury related very much to what the general public saw in 1st Dec 11 magistrates hearing. The public twice, in Magistrates and May Crown court saw evidence of the fabrication , before them, of a hand written part typed draft restraining orders which I saw in the cells.

The official one was , no doubt, in the 'sealed brown envelope' prepared by the Recorder of Cardiff 'when Mr Kirk gets sentenced' on 14th Nov 11 two whole weeks before evidence was heard and conviction given!

I am now being, no doubt arrested again and jailed on still further trumped up South Wals Police allegations.....anything to hinder and prejudice my 20 years civil damages claim for malicious prosecutions and false imprisonments

**I now have phone call, this morning, from Barry police to 'come in' re the same restraining order concerning a rogue doctor proved a liar**

This week my GP and specialists confirmed I have no indication of brain damage or a tumour (I took a witness) meaning further proof the police psychiatrist perverted the course of justice and the police knew it .....BUT I CAN FLY !!!!!!!!

Omitted are two supporting documents re my 19th Aug letter 26th July 12 MJK letter to Cardiff Admin Court and Police statement of Meirion Bowen witnessing the CPS production of draft 'Restraining Orders' in open court.....will ring this morning for detail on 3rd July 2012 letter  
Thankyou
