16/08/2010 Patient reviewed he has run out of his tablets as he was in France Came back on Friday 13 th [redacted]  
09/08/2010 Had a chat to patient discussed with Maurice about the analgesia  
can be given him odd s/e and feeling ioff drowsiness  
will right a letter can this be emailed to him please [redacted]  
28/07/2010 Constipation NOS Previous hx of anal fissures does not need to be constipated [redacted]  
14/07/2010 Home visit requested home visit as he could not get from bed due to sore leg Maurice tells me he is having a hip replacement done next week at BUPA He slipped and fell in kitchen and he need pain tabs I ask him what he has been using and he tells me co dydramol I see he has had 2 scrips for a 100 co dydramol on each and explain that I am not able to issue another Rx Patient then discusses Africa and 2nd hand Dutch that gets spoken there He then ask that i give him some tablets from my case as his friend who is an alcoholic has left with his script early this morning and has not returned I advise that we do not carry medication in or bags Maurice says he will then have to wait for his friend if I am not going to help [redacted]  
13/07/2010 Administration NOS patient says lost script dated 9/7/10 before he could take to the chemist in a lot of pain with leg so new one done [redacted]  
09/07/2010 Had a chat to patient advised must have mri head now prior to having op. to arrange via spire. [redacted]  
25/06/2010 Administration NOS Telephone call from Cardiff prison, enquiring which meds pt is currently taking. [redacted]  
11/06/2010 Telephone encounter pt had apparently cancelled his private MRI scan last week because he wanted the report to go direct to him and not to the surgery. He has today asked me to re-arrange MRI - once I reminded him the report would still have to come back to us he said he would probably try and have it done in France!! [redacted]  
11/06/2010 Telephone encounter I have spoken to Dorian Edwards - who confirms contact with pt and all documentation is being sent to his home address in Barry [redacted]  
09/06/2010 Telephone encounter failed to contact [redacted] left message to phone surgery. [redacted]  
09/06/2010 Telephone encounter Dorian Edwards on 01639603336 ( advising that all records have now been photocopied (plus disc). Pt will be contacted directly today and advised that he will be able to pick up records Thurs/Fri. (n.b. there are no written records with pt's consultation with a Dr Bagshaw and Joseph Sylvester) if pt not happy with this Dorian Edwards will have to try and contact these Doctors but there was no written report at the time. [redacted]  
02/06/2010 Telephone encounter can we please inform [redacted] of orthopaedic consultant at Spires when notes are available. Consultant cannot go ahead with hip op until he has report from Caswell. Ms Sarah Gee  
02/06/2010 Telephone encounter we need to contct Ann Biffen at H.O of Caswell Clinic she apparently is dealing with this as Dr Jones on holiday. Message left for her to phone surgery today. Ms Sarah Gee

02/06/2010 Administration NOS Private MRI referral made today as agreed by pt. (copy in file) [redacted]  
02/06/2010 Patient reviewed add later  
I have explain that medical records can not be auto matically realised to the patient often it is a requirment that soem clinically trained goes through the notes  
There is not evidence of a brain tumour in the notes that we have brain trauma yes  
will arrange a further private MRI scan for Mr Kirk as this may be the best way of treating him [redacted]  
02/06/2010 Knee pain probably referred from the hip  
awaiting surgery for the hip [redacted]

02/06/2010 Had a chat to patient discussed the MRI scan and everything around the MRI scan.  
Veyr difficult man to deal with as he really has a very odd perspective on things but also mixed with intelligence of a nature so very dangerous

18/05/2010 Telephone encounter with Karina Sec to Dr Tegwen Caswell Clinic Bridgend - they are happy to provide pt with his medical records - Pt needs to contact them direct with new address.

29/04/2010 Had a chat to patient re xray result. getting significant QOL issues with hip - to refer privately to Vale clinic. also chat re mri previously performed in POW - report given to him - definitely no SOL so no further scan required. happy with this.
