

WANTED

Judge Paul Thomas QC

As Cardiff trial judge he *refused* me - my medication, my documents in cell below, bail, relevant witnesses, the right to cross examine relevant issues, the right to interview my own witnesses, to stop a hopeless trial, disclosure of the police fabricated conspiracy with MAPPA/FTAC, seeking IPP, that I was dangerous and in 'possession of a WW1 decommissioned Lewis machine gun with live ammunition.

Jury decided verdict after first day of evidence

He refused the huge costs incurred

EVILNESS PERSONIFIED
